ASP

ASP is a three-week credit-based program offering innovative perspectives on Asia.

Participating students will experience a highly international environment, allowing them to learn directly about the diverse cultures of Asia.

Many of the participating universities send leading professors to offer courses on relevant issues in Asia. Each of the courses taken may be applied toward a student's graduation requirements at his or her home university based on an agreement for credit transfer between the participating universities.

**ASIA SUMMER
PROGRAM 2014**

(ASP 2014)

5th – 25th AUGUST 2014
Perlis, Malaysia

BACKGROUND

ASP began through a shared sense of responsibility felt by leaders of the five founding universities: Bangkok University, Thailand; Dongseo University, Korea; Josai University, Japan; Petra Christian University, Indonesia; and Universiti Malaysia Perlis, Malaysia.

It was agreed that given the increasing global importance of Asia, institutions of higher education should strive to create future leaders with a strong understanding of Asian perspectives.

**ASIA SUMMER
PROGRAM 2014**
